
Radical Forgiveness

Enjoy freedom of choice, empowerment, and the ability to change any aspect of your life...

There is nothing more powerful than forgiveness for it is an energy that creates freedom of choice, in contrast to reacting and living the same patterns of life over and over. It is the energy that lifts us into a higher level of being, into a greater consciousness that is empowering and enlightening; so much so, that with forgiveness we are able to change any aspect of our life we so desire.

Forgiveness is not always easy, so this course offers a number of tools in the Radical Forgiveness technology that will enable you to:

- identify unresolved negative feelings
- release negative feelings
- open to the higher purpose of all things
- expand your consciousness of acceptance and love of self and others
- empower the VICTOR within, not the victim
- see yourself and your world with more loving, caring and compassionate eyes

We ALL have something to forgive – maybe some annoyances and resentments, maybe major issues and wrongdoings, maybe with others and maybe with ourselves. The tools of Radical Forgiveness are powerful, and you can use them every day whenever there is a need.

This course is based on the book entitled *Radical Forgiveness* by Colin Tipping. It is required reading for the class, and copies are available through our spiritual bookstore.
